Scary Silly Science

Get ready for a bewitching night of hands-on exploration and creepy-cool experiments that will have you bubbling with excitement!

- A chilling demonstration with dry ice (outside of Pima County)
- A super cold liquid nitrogen (in Pima County) to show just how frosty science can be!

Your taste buds are in for a treat with some tasty scientific delights. With even more hands-on experiments brewing, you'll be making messes and discovering the magic of science in the most delightfully mischievous way.

Stars, Songs, and S'mores!

Gather 'round everyone, we're celebrating the autumnal season with sweet treats, stellar sights, and a magnificent monster mash! Roast your own marshmallow to build a tricked-out s'more with endless sweet and salty toppings. Then, take a closer look at the night sky with a guided star talk to learn the lore and legends of our galaxy's constellations. We'll end with a glow-in-the-dark dance party full of festive tunes and your best dance moves! And, get a chance to win fabulous prizes by wearing the silliest, scariest, or most iconic costume.
